Tobacco Stocks Report as of April 1, 1965

U. S. DEPARTMENT OF AGRICULTURE
CONSUMER AND MARKETING SERVICE
TOBACCO DIVISION

The Tobacco Stocks and Standards Act provides for a quarterly report of tobacco stocks. These reports, based on information filed by manufacturers, dealers, and others, are prepared by the Tobacco Division of the Consumer and Marketing Service.

U. S. DEPT. OF AGRICULTURE

Stocks of foreign-grown cigar leaf - FARM-SALES WEIGHT	14-15

STOCKS OF LEAF TOBACCO OWNED BY DEALERS AND MANUFACTURERS 1/ 2/

Total leaf tobacco stocks above April 1 a year ago

Stocks of leaf tobacco in the United States and Puerto Rico totaled 5,551 million pounds (farm-sales weight) as of April 1, 1965, based on the regular quarterly reports of dealers and manufacturers. This is 237 million pounds, or 4 percent, more than the April 1 figure a year ago (5,314 million). Inventories were at a record high level for this quarter. The 1964 crop of about 2,363 million pounds was in stocks as of April 1, with the exception of around 60 million made up mainly of Maryland and Puerto Rican types. About 275 million pounds were marketed during the quarter.

Volumewise, most of the overall increase was in stocks of flue-cured and imported cigar leaf, which were up 7 and 64 percent, respectively. Stocks of burley, Maryland, and cigar filler types also were higher than a year earlier. Holdings of the binder and cigar wrapper types were down slightly.

Stocks as of April 1, 1965, included 1,367 million pounds (farm-sales weight) of leaf tobacco under Government loan. This is 282 million pounds higher than on April 1, 1964 (1,085 million). These loan stocks were divided as follows: flue-cured, 953.6 million pounds; burley, 325.3 million; Maryland, 16.1 million; fire-cured, 43.6 million; dark air-cured, 22.8 million; and cigar leaf, 5.2 million pounds.

1/ Figures quoted for type totals in this summary are the farm-sales-weight equivalent of reported stocks except foreign-grown leaf which is converted to an unstemmed equivalent basis only. (See tables in body of report for reported weight basis.) This report is issued quarterly.

2/ All Government loan stocks are reported by Grower Cooperatives, which are considered dealers for stocks-reporting purposes.

CIGARETTE-LEAF STOCKS

Inventories of flue-cured, burley, and Maryland

higher than on last April 1.

Stocks of foreign-grown cigarette leaf about same

Flue-cured stocks totaled 2,823 million pounds as of April 1, 1965, an increase of 174 million from holdings a year earlier (2,649 million). The crop of 1964, totaling 1,388 million pounds, was slightly larger than the one grown in 1963 (1,371 million). Sales of the 1964 crop of flue-cured were completed prior to January 1, 1965.

Inventories of burley were reported at 1,710 million pounds on this April 1--which represented a slight increase over holdings on the same date a year ago (1,699 million). Sales during the first quarter totaled about 122 million pounds, the amount of the 1964 crop of 620 million left to be sold after the Christmas holidays.

Maryland holdings as of the April 1 reporting date were 74.9 million pounds--4.5 million larger than the amount held a year earlier (70.4 million). The 1964 crop, estimated at 41.0 million pounds, will be marketed during the May-July period this year.

Stocks of foreign-grown cigarette and smoking tobacco (Turkish and other) were 276.7 million pounds--2.1 million above the previous April 1.

DARK TOBACCO STOCKS

Fire-cured and dark air-cured slightly higher

Fire-cured stocks, reported at 141.0 million pounds on this April 1, were 1.6 million above those reported on last April 1 (139.4 million). Stocks of each of the types were just slightly larger than a year earlier. Marketings of the 1964 crop of 55.1 million pounds was completed during the first quarter. About 50 million pounds were sold in the January-March quarter. Virginia fire-cured stocks on this April 1 were 21.5 million pounds, Kentucky and Tennessee Eastern District, 94.0 million, and Western District, 25.5 million.

Holdings of dark air-cured, totaling 77.6 million pounds on April 1, 1965, were slightly larger than stocks on hand a year ago (76.8 million). Slight increases were reported in Green River and Virginia sun-cured types, the One Sucker type being slightly lower. Sales of the 1964 crop, totaling 24.5 million pounds, were completed during the quarter. Of the total, about 11.0 million pounds were sold in the January-March period. Inventories of dark air-cured as of April 1, 1965, by types, were as follows: One Sucker, 45.4 million pounds; Green River, 26.9 million; and Virginia sun-cured, 5.2 million.

CIGAR LEAF STOCKS

Holdings of domestic cigar leaf about same Foreign-grown cigar leaf stocks up sharply

Inventories of all domestic-grown cigar tobacco, including Puerto Rican, totaled 335.0 million pounds (farm-sales weight) on April 1, 1965. This total was approximately the same as stocks reported last April 1 (333.9 million). The 1964 cigar-leaf production of 134 million pounds was in stocks by this April 1 except for a small volume consisting mostly of the 1964-65 Puerto Rican crop. Holdings of foreign-grown cigar leaf were at a record level of 109.1 million pounds (unstemmed equivalent), an increase of 42.4 million over the stocks reported on April 1 the previous year (66.7 million).

Holdings of cigar-filler types as of April 1, 1965, totaled 231.0 million pounds--5.1 million larger than the figure reported on last April 1 (225.9 million). An increase in stocks of Type 46 was partially balanced by lower holdings of Ohio filler. Cigar-filler leaf inventories, by types, on April 1, 1965, were as follows: Pennsylvania filler, 152.4 million pounds; Ohio, 20.9 million; and Puerto Rican, 57.8 million.

Cigar-binder stocks totaled 80.3 million pounds on April 1, 1965--a decrease of 2.2 million from inventories reported a year earlier (82.5 million). Stocks of all the types but Northern Wisconsin were lower as compared with last April 1. Connecticut Valley Broadleaf stocks this April 1 were 15.1 million pounds; Connecticut Valley Havana Seed, 7.3 million; Southern Wisconsin, 28.3 million; and Northern Wisconsin, 29.6 million.

Shade-grown cigar leaf stocks of 23.7 million pounds were 1.9 million less than those reported on April 1, 1964 (25.6 million). Stocks of both types were lower than those of a year ago. As of April 1, 1965, holdings of Connecticut Valley Shade were 15.6 million pounds; and of Georgia-Florida Shade, 8.1 million.

Stocks of Cuban (Havana) leaf, reported at 11.2 million pounds, were down 5.7 million from last year (16.9 million). Philippine Islands (Manila) stocks totaled 31.5 million, more than double those on hand a year ago (15.3 million). Stocks of Indonesian leaf were 6.1 million pounds, Brazilian 14.3 million, Colombian 15.9 million, Dominican Republic 19.8 million, Paraguay 3.6 million, and other foreign-grown 6.7 million.

STOCKS OF TOBACCO SHEET (see table 4)

Stocks represented in tobacco sheet show increase

Stocks of leaf represented in inventories of "tobacco sheet" totaled 8.9 million pounds (reporting weight) compared with 7.7 million on the previous April 1. Of the total in "tobacco sheet" this April 1, 6.3 million pounds were for use in cigarettes and smoking tobacco, and 2.6 million for cigar binder, including a very small quantity for wrappers.

Cigarette and smoking tobacco	90	1.333	1.466		1.10

1/ Types 11-37 are reported on the basis of packed weight.

2/ Farm-sales-weight equivalent based on unstemmed sweated weight factor.

3/ The instructions for reporting unstemmed cigar-leaf of the domestic types require that dealers and manufacturers indicate the weight basis on which the tobacco is reported, namely, farm-sales weight, marked weight, or sweated weight. The stocks are converted to the farm-sales-weight equivalent on the basis of average factors reflecting the percentage reported each quarter in each of these three categories.

Table 2.--Stocks of leaf tobacco owned by dealers and manufacturers, by types, converted to a farm-sales-weight equivalent,
April 1, 1965, compared with other quarters 1/ 2/

1/ Totals include stocks of leaf reported in tobacco sheet. See separate reporting in tables 3 and 4.

2/ For factor used in converting weights see table 1. Farm-sales-weight equivalent of stocks of imported tobaccos shown in table A page 14.

3/ For explanation of stocks included in this classification, see footnote 5 on page 10.

4/ Foreign-grown leaf is converted to an unstemmed equivalent basis.

* Revisions.

Table 3.--Stocks of leaf tobacco, including leaf in tobacco sheet 1/, by types and, where applicable, by groups of grades, owned by dealers and manufacturers, April 1, 1965 compared with April 1, 1964, and January 1, 1965

1/ Represents leaf tobacco in stocks of reconstituted or processed tobacco sheet.

2/ Subject to revision.

3/ Summary according to groups of grades reflecting a broad quality breakdown of total cigar leaf stocks.

4/ Includes Puerto Rican on the Island, Type 46. 5/ Although Type 73 is defined as all domestic types of tobacco not otherwise classified, the bulk of the stocks reported in this type consists of cuttings, clippings, and trimmings. This is the result, in most instances, of the inability of reporters to designate cuttings, clippings, and trimmings in the "S" group of the types to which they properly belong.

* Revisions.

Table 4.--Summary of tobacco leaf represented in inventories of tobacco sheet, for cigar binder and for cigarettes (including smoking tobacco), separately 1/

1/ Total includes stocks of leaf reported in tobacco sheet. See separate reporting in tables 3 and 4.

2/ These statistics represent the quantity of leaf tobacco reported as owned by all leaf tobacco dealers, manufacturers, quasi-manufacturers, growers' cooperative associations, warehousemen, brokers, holders, and owners subject to provisions of the Tobacco Stocks and Standards Act approved January 14, 1929, and the amendments thereto passed in the 72nd and 74th Congress. The quantities owned by dealers and manufacturers have been tabulated separately on a type total basis.

3/ This table should be considered as representing only the approximate quantities owned respectively by dealers and manufacturers. The quantities shown as owned by manufacturers include tobacco which is held under dealer registries of manufacturers and also tobacco held by dealers and known to be purchased on order for foreign or domestic manufacturers. The quantities shown as owned by dealers may include some tobacco held by dealers which is earmarked for sale to domestic manufacturers or for export. All Government loan stocks are included as dealers holdings.

4/ Includes stocks on the Island of Puerto Rico.

5/ For explanation of stocks included in this classification see footnote 5 on page 10.

1/ Totals include stocks of leaf reported in tobacco sheet. See separate reporting in tables 3 and 4.

2/ These statistics represent the quantity of leaf tobacco reported as owned by all leaf tobacco dealers, manufacturers, Quasi-manufacturers, growers' cooperative associations, warehousemen, brokers, holders, and owners except (a) the original growers of tobacco; (b) manufacturers who in the first three quarters of 1964, according to the returns of the Commissioner of Internal Revenue, manufactured less than 35,000 pounds of tobacco, less than 185,000 cigars, or less than 750,000 cigarettes, pursuant to the provisions of the Tobacco Stocks and Standards Act approved January 14, 1929, and the amendments thereto passed in the 72nd and 74th Congress.

3/ Subject to revision.

4/ For explanation of stocks included in this classification see footnote 5 on page 10.

* Revisions.

TABLE A.--Stocks of foreign-grown tobacco - FARM SALES WEIGHT 1/

The conversions of imported tobacco stocks shown in this table are for comparative purposes with the farm-sales-weight equivalent of United States-produced tobaccos. Stocks, overall supplies, and disappearance of the domestic types are quoted in terms of the farm-sales-weight equivalent, and the conversion of imported tobacco stocks to this basis provides a more realistic comparison. Previously, stocks of imported tobacco had been converted only to an unstemmed-equivalent basis and are continued on this basis in Table 2. Also, the actual reported weight of overall leaf inventories will continue to be shown in Tables 3, 4, 5, and 6.

1/ Stocks of foreign-grown cigar leaf (unstemmed equivalent) are converted to farm-sales-weight by multiplying by the factor 1.16.

2/ Prior to July 1, 1962, stocks from Brazil, Colombia, Dominican Republic, and Paraguay were not reported separately, but were included under Other Foreign-grown Cigar Leaf, Type 84 (beginning July 1, 1962, Other Foreign-grown Cigar Leaf is designated as Type 88).
